

TELL THE WISCONSIN LAWMAKERS:

NO VAPOR BANS!

- Wisconsin lawmakers are considering prohibiting the use of vapor products everywhere smoking is banned— including outdoors and the private residences in multi-unit buildings!
- These laws will cause the public to falsely believe vapor is as hazardous as smoke and take away an incentive for current smokers to switch. Laws should not keep smokers smoking!
- Privately-owned vape shops will be prohibited from allowing adult customers to sample products in the store. This will cause shops to close, limit adult smokers' access to products and cost jobs!
- **YOU MUST ACT!**

Sign the petition found on the WSAC website. Tell your story about how vapor products have helped you or a loved one. Contact your district lawmakers and encourage them to oppose any laws that prohibit use of vapor products. Join WSAC to keep updated about the statewide and local laws being proposed!
