

TELL THE JANESVILLE CITY COUNCIL:

NO VAPOR BAN!

- Janesville is considering prohibiting the use of vapor products everywhere smoking is banned– including many OUTDOOR SPACES!
- This law will cause the public to falsely believe vapor is as hazardous as smoke and take away an incentive for current smokers to switch. Laws should not keep smokers smoking!
- A law that bans vaping in ALL work places is excessive, unnecessary and unfair. Business owners should be able to decide whether or not they want to cater to vaping customers and/or allow their employees to vape instead of going outside to smoke!

- **YOU MUST ACT!**

Attend the city council meeting on August 24th at 6:00 PM in the Council Chambers on floor four of City Hall, 18 N Jackson Street in downtown Janesville.
